## **FREE Electric/ Hybrid Vehicle Safety Training**

IMI Level 1 Award

### **Why would this course benefit and employer**

This qualification is ideal for employees who work with electric/hybrid vehicles. It is essential employees have the knowledge of how to work safely with these vehicles in the workplace.

This qualification is designed to provide employees with an introduction to the knowledge of safe working practices, the dangers and the precautions required to avoid potential injury when near electric/hybrid vehicles.

It is an introduction to this specialised industry sector which in addition to complimenting their current industry qualifications and experience, will enable them to continue to work safely within their role.

# **FREE**

**to businesses across  
Chesterfield and  
North East Derbyshire**

(with eligible post codes)

These roles can include, but are not exclusive to, non-technical employees, such as:

- Managers
- Valeters
- Parts personnel
- Sales and aftersales personnel event staff
- Fleet managers and personnel
- Vehicle recovery personnel
- Vehicle dismantlers
- Vehicle damage assessors
- Insurance companies
- Vehicle hire companies, and  
Electric/hybrid professional vehicle drivers

There are no formal entry requirements for this qualification and individuals are not expected to have any prior knowledge or experience, however an interest in the subject area is advisable.

## Modules on the course:

The content of this qualification has been designed to give employees the knowledge required to work safely around electric/hybrid vehicles. It contains one mandatory unit covering:

- The types of electric/hybrid vehicles available
- Hazards associated with motor vehicle
- High energy electrical systems
- Working safely around electric/hybrid vehicles including charging

## As a result...

Employees successfully completing this qualification will acquire significant core knowledge of working safely around, but not maintaining electric/hybrid vehicles.

## Progression Opportunities:

This qualification will help support progression onto qualifications that further develop employees knowledge of either working safely in emergency or recovery situations or within a technical role carrying out routine servicing and maintenance activities on electric/hybrid vehicles.

Courses for progression include:

- Level 2 Award in Electric/Hybrid Vehicle Hazard Management for Emergency and Recovery Personnel
- Level 2 Award in Electric/Hybrid Vehicle Routine Maintenance Activities
